About charging

- The included charging stand is designed exclusively for this unit and cannot be used to charge other devices.
- The included charging stand does not support batteries other than those specified. Do not charge.
- Charging is +FiveC~+40Please do this in a location that is °C.
- During charging, the charging stand and rechargeable battery may become hot. But there is no danger.
- Rechargeable batteries that have not been used for a long time or when you first purchased them In ponds, the duration may be short.
- This is due to the characteristics of the battery and can be restored by charging and discharging it several times.
- Repeat this until it is fully charged.
- The usable time of the rechargeable battery is limited even if it is fully charged. When it is about half the normal amount, use a new charger. Replace it with a rechargeable battery.
- Once charging is complete, remove the device from the charging stand as soon as possible.ACplug the power adapter from the wall outlet. Leaving it plugged in for an extended period of time may reduce the battery performance.

Disposal of rechargeable batteries in Japan Nickel-metal hydride batteries are You can remove it. Nickel-metal hydride batteries are Use insulating tape such as cellotape tape Stick tape on it and sign the recycling agreement. Please take it to a power store.

Ni-MH

Collection, recycling and recycling of rechargeable batteries For participating stores, please contact the Battery Association of Japan Page: <http://www.baj.or.jp/>Please refer to So lame.

Handling

- Do not drop the product or subject it to strong shocks. Doing so may cause a breakdown.
- Do not pull the cord of the remote control or headphones too hard. Please do not do so.
- Do not place in the following locations:
 - Where temperatures are very high
 - Places exposed to direct sunlight or near heating appliances
 - Inside a car with the windows closed(specially in summer)
 - Humid places such as bathrooms
 - Near magnets, speakers, televisions, or other magnetic objects
 - Dusty places

Temperature Rise

When charging or using the product for an extended period of time, your body temperature may rise, but this is not a malfunction. There is no.

Operation noise

This unit is designed to operate in a power-saving mode. Therefore, there will be intermittent noise during operation. This is not a malfunction.

Handling of MiniDiscs

- The minidisc itself is housed in a cartridge. This makes it easy to handle without worrying about dust or fingerprints. However, the cartridge Dirt or warping on the "You can enjoy beautiful sounds forever." Please note the following points to ensure
 - Do not touch the mini disc directly. Do not open the shutter by hand. if you force it open it will break.

Do not touch the lens

If the lens becomes dirty, sound skipping may occur or playback may become impossible. It may be missing or disappear. Also, when removing the disc, be sure to Do not open the lid except for inserting.

ACAAbout the power adapter

- (For use with charging stations only)
 - This product includesACPower adapter/sold separatelyACPower adapterAC-E30LPlease use products other than those listed above, and it may cause a malfunction.
- Shutter Cartridge
- When transporting or storing the device, use the case.
 - Can
 - About the location In places exposed to direct sunlight or high temperatures Do not place in a dry place or in a humid place. Do not leave the disc on a beach or in other places where sand may get into the disc. please.
 - Regular maintenance Dust and dirt on the cartridge surface Wipe it off with a dry cloth.

- The label that comes with the disc is in a position other than the designated position. Do not stick it on the label. Make sure to paste it firmly to fit the size.
 - ACWhen using the power adapter, please note the following:
 - Install the unit in a bookshelf, built-in cabinet, etc. Do not place it in a narrow space.
 - To avoid the risk of fire or electric shock, Do not use in hot or humid places. Do not place a vase or other object containing water on top of the unit. Do not place anything containing
- About headphones
- The supplied headphones may not be able to produce sound if the volume is turned up too high. If the volume is too high, it may cause noise around you. Be careful not to cause trouble to others. Turn up the volume in noisy places. It's common, but when do you listen with headphones? The volume is loud enough so you can respond when someone calls out to you. Please use this as a guide.
 - If you experience any skin irritation while using the included headphones, discontinue use immediately and consult a doctor or Please contact our Customer Service Center.

About the remote control

- The remote control provided is for this unit only. Remote controls provided with other devices cannot be used to operate this unit.
- plug.

警告 For your safety

Sony products are designed with safety in mind. However, all electrical products can be dangerous if used improperly and can result in fire, electric shock, or other personal injury. To prevent accidents, be sure to observe the following:

Observe safety precautions

Please read the following precautions carefully. They contain general product precautions.

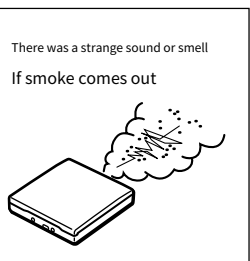

Check regularly

1A yearThe degree isACCheck to see if there is any dust accumulated between the power adaptor plug and the outlet, or if the power adaptor is still being used in a malfunction state.

Do not use if broken

The operation becomes strange,ACif you notice that the power adaptor, charging stand, or other part is damaged, immediately contact your retailer or a Sony service representative for repair.

If an abnormality occurs

- 1power off
- 2ACPower adapter Unplug the
- 3Purchased from a store or Repair at the knee service desk Request a consultation

Do not allow water or foreign objects to get inside the unit.

If water or foreign objects get into the device, it may cause a fire or electric shock. If water or foreign objects get into the unit, immediately turn off the switch and ACUnplug the power adapter from the outlet and contact your retailer or a Sony service center for assistance.

Domestic aircraft will not be used overseas Other than the World ModelACThe adapter is for use in Japan only. 100VUsing the unit overseas with a different power supply voltage may result in fire or electric shock.

With wet handsACDo not touch the power adapter or charging stand. This may cause electric shock.

please Used rechargeable batteries are a valuable resource. Please dispose of the terminals (metal parts) by taping them off, and bring them to a participating rechargeable battery recycling store.

Do not charge or leave the battery near a fire or in direct sunlight. The internal temperature will rise and may cause a fire or malfunction.

Do not place any metal objects on the charging station. If the terminals of the charging stand come into contact with metal, a short circuit may occur and the charging stand may become hot.

Do not carry or store the device or battery case together with metal objects. If you carry or store the battery together with metal objects such as coins, key necklaces, etc., it may short circuit and generate heat.

If you do not observe the following precautions,Injury or aroundHousehold goods damageWe may give you a

Do not listen at high volumes for long periods of time Listening to music for long periods of time at a loud volume that irritates your ears can have a detrimental effect on your hearing. Be particularly careful when listening to music with headphones. Listen at a volume that allows you to respond when someone calls out to you.
